Hyderabad, India | akhilpullai404@gmail.com | 7989140636 | LinkedIn: pullai-akhil

CAREER OBJECTIVE

Motivated and enthusiastic B.Tech CSE student with knowledge in Python, Web Development, and Programming Languages, actively seeking an internship opportunity to apply technical skills, gain real-world industry experience, and contribute through practical projects and teamwork.

EDUCATION

CMR College of Engineering & Technology <i>Bachelor of Technology in Computer Science and Engineering; CGPA: 8.0 (2nd year)</i>	Hyderabad, Telangana <i>July 2024 – Present</i>
SR Junior College, Nizamabad <i>Class XII (MPC); Percentage: 9.09</i>	Nizamabad, Telangana <i>2024</i>
Kakatiya High School, Nizamabad <i>Class X; Percentage: 9.3</i>	Nizamabad, Telangana <i>2022</i>

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, JavaScript
Web Technologies: HTML, CSS
Databases: SQL, Oracle, MongoDB
Core Skills: Data Science, Problem Solving, Basic Machine Learning Concepts
Concepts: Data Structures, Algorithms, Operating Systems, Computer Networks

PROJECTS

- Personal Portfolio Website** | *HTML, CSS, JavaScript*
- Developed a responsive portfolio website using HTML, CSS, and JavaScript.
 - Showcased skills, projects, and contact information with clean UI design.
- NASA Asteroid Classification System** | *Python, Machine Learning*
- Developed a NASA Asteroid Classification system using Python and Machine Learning.
 - Performed data analysis and prediction using NASA datasets and AI algorithms.
- Notepad Clone Application** | *Java, Swing*
- Developed GUI-based text editor with file operations (new, open, save) and editing features (cut, copy, paste).
 - Implemented event-driven programming using ActionListeners and Java I/O for file handling.
 - Technologies: Java, Swing, JFileChooser, BufferedReader/Writer.
- Connect 4 Multiplayer Game** | *Python*
- Built multiplayer game with turn management, win detection, and real-time game state updates.
 - Implemented winning condition algorithms for horizontal, vertical, and diagonal patterns.
 - Technologies: Python, Game Logic, Player vs Player functionality.
- Samvaad AI** | *NLP, AI*
- Developed “Samvaad AI”, an AI-powered chatbot for real-time user interaction and assistance.
 - Integrated NLP and voice/text communication features to improve user experience.
- RegulaX AI** | *AI, Dashboard*
- Designed and developed “RegulaX AI”, an AI-powered compliance management platform with smart automation features.
 - Built an enterprise-grade dashboard for regulation tracking, risk monitoring, and AI-driven task management.

EXPERIENCE

Smart India Hackathon

India

Participant

2024 – 2025

- Participated in Smart India Hackathon, gaining experience in teamwork, problem-solving, and real-world project development.

HackerEarth PAN IIT Alumni Hackathon

India

Participant – Qualified to Idea Phase

2024 – 2025

- Qualified to the Idea Phase and developed a functional prototype demonstrating technical and problem-solving skills.

Google AI Essentials | Introduction to Data Science | Introduction to IoT | Python Essentials
Introduction to Modern AI | Introduction to Cybersecurity | Networking Basics | Elements of AI | Salesforce
Agentforce Specialist

STRENGTHS

Quick Learner: Proven ability to rapidly assimilate new modern tech stacks and technical methodologies.

Team Collaboration: Strong group dynamic coordinator with efficient multi-functional teamwork practices.

Problem Solving: Analytical mindset dedicated to identifying optimal, structured, and efficient solutions.

Adaptability & Communication: Flexible performer across fluid environments paired with clean, professional verbal and written expression.

LANGUAGES

English (Professional Working Proficiency), Telugu (Native), Hindi (Professional Working Proficiency)

I hereby declare that the above information is true to the best of my knowledge and belief.
